

The image displays a PCB layout with three components arranged horizontally. Each component is represented by a white rectangular footprint with a black border. Above each footprint is a label in red text: 'EPS32' for the left component, 'X7600CX' for the middle component, and 'POWER_CONNECTOR' for the right component. The components are positioned on a light gray background. The layout is framed by a coordinate grid with columns labeled 1 through 6 and rows labeled A through D. A title block is located in the bottom right corner of the layout area.
